

Babe Ruth League Safety Requirements

What are the 2020 Safety Requirements for all volunteers?

Volunteers must complete a background screen and abuse prevention training via SportsEngine's APS Training.

How do volunteers complete the two required items?

SportsEngine has a background screen + training package priced at \$25.50 for Babe Ruth that can be accessed [here](#).

Can I pay for the cost of the background and abuse prevention screening for my volunteers?

Yes. Please fill out [this form](#) as soon as possible to purchase prepaid codes for your volunteers. The National Babe Ruth office will then contact you with the prepaid codes.

As a league admin, how do I track results for my volunteers?

Start by filling out [this form](#), to be granted access to a private website for viewing results.

Once you've been granted access, you may view the results of the background screen and APS completion using the [Babe Ruth Safety site](#). A coach will only show up on this list if they have passed. Please allow a few days for pending screens to be completed.

Babe Ruth will be checking to ensure that every coach has completed both the screen and abuse prevention training when approving rosters.

For any additional questions, please contact us at baberuthscreening@sportsengine.com.
